

Intellectual Property Financial Sector

Nabarro's well-established IP practice combines careful planning with good judgement to help our clients protect their intellectual property.

Nabarro services the trade mark and IP requirements of some of the world's largest and most sophisticated companies. We believe that careful planning and good judgement are vital to the effective handling of intellectual property matters. To this end, we combine our different areas of expertise to develop and implement thoughtful intellectual property strategies.

Much of our work has an international flavour. We represent a mix of UK enterprises operating in world markets and overseas entities looking to safeguard their interests in the UK and across Europe. We oversee the protection of our clients' rights in over 220 countries.

Our clients in the financial sector include international investment, private and retail banks, corporate finance and brokerage houses, asset managers and hedge funds such as [Jupiter Asset Management](#), [EFG Bank/Eurobank EFG](#), [JP Morgan](#), [Dow Jones/Wall Street Journal](#), [Amiri Capital](#), [Beetle Capital Partners](#) and [Accel Partners](#).

Unusually for a law firm, we have an integrated trade mark filing and prosecution practice – we are one of Europe's leading law firm trade mark filing practices. We manage large and small international trade mark portfolios, using a network of overseas firms and can offer clients web access to their trade mark cases.

This work complements our policing and enforcement work in the UK and overseas. We handle trade mark oppositions and intellectual property disputes in the UK and EU, and manage overseas oppositions and litigation.

We have experience in litigating patents covering core technologies deployed by banks and the financial sector (such as trading software/platforms, ATM machines and data chips). We regularly advise on data privacy issues.

OUR WORK INCLUDES:

- Clearance for new product and fund names and brands
- Filing and protection strategies (trade marks and domain names)
- Management of large international trade mark portfolios
- Brand policing, enforcement strategies and litigation/oppositions
- Companies Names Tribunal complaints
- Domain name complaints and removal of websites (such as boiler room scams)
- Patent litigation and technology disputes
- Advising on IP and technology ownership and licensing structures/documentation
- Copyright and designs
- Data protection and confidentiality.
